AIRPORT MASTER PLAN UPDATE

The City of Kenai is updating the current master plan for the Kenai Municipal Airport.

Project Purpose

The purpose of the update is to determine how the airport can best serve the future interests and needs of the flying public, the aviation community, the City, and other stakeholders.

The master planning process will require input from current and prospective airport users to document current conditions and identify issues at the airport.

How You Can Help

The City has contracted HDL Engineering Consultants, LLC, to assist with the master plan update. HDL recently completed the airport facility inspection and will be collecting survey information in the near future. We encourage you to share your user experience. Our team is interested in hearing about:

- How you use the airport and/or the surrounding area
- What you like most about the airport
- What you dislike about the airport
- What you see as future changes or need for the airport or the surrounding area
