Statement (reproduced exactly as submitted):

As a second-generation Alaskan, I have watched the City of Kenai grow for 39 years. Along with my wife Sarah and four sons, we have invested in Kenai as home for our family and our business.

Being involved is essential to successful communities, my history of civic dedication and involvement includes previously serving on Kenai City Council for three years. I strongly support community engagement, youth sports as well as am a advocate for our city's law enforcement and first responders.

During my term as a council member, I focused on fostering new development by responsible, data driven decisions. Along with planning future fiscally responsible development. Encouraging decisions based on facts and research. I have always and will continue to strive for modern ways to engage citizens and work for the whole community.

Following my advocacy for a community survey, I am encouraged by the voices of citizens of their desires for the City of Kenai. Using this data, I pledge to lead and promote development within the City of Kenai for the betterment of its citizens and visitors.

Using our voices together, we can improve Kenai for ourselves and generations to come, thank you for voting Alex Douthit.
