Statement (reproduced exactly as submitted):

I am a 64-year resident of Kenai and have served on the City of Kenai Council for the last eleven years and as Vice Mayor for the last two years. I also served on the Kenai Airport Commission for 20 years and the Planning & Zoning Commission for 4 years. I attended the University of Alaska Fairbanks School of Engineering, where I earned a BS in Civil Engineering, and have been working in the field ever since. My wife of 39 years and I have raised two beautiful daughters (Carolyn & Kate) who also graduated from KCHS and are now medical professionals. I try to evaluate all sides of an issue and listen closely to all concerned before coming to a very considered decision. I am also a fiscally conservative Kenai resident and will work hard to bring businesses and industry to Kenai, while protecting our neighborhoods. I strongly support training for our city employees and education for our youth. I have been your solid, common sense, and well-prepared councilman who is ready and willing to continue working for you in the role as mayor. I would very much appreciate your vote. Please call with any questions.
