Statement (reproduced exactly as submitted):

Dear Voters

I'd appreciate your vote on November 3rd.

I was asked to run for office by some of my neighbors and friends and some business leaders in our community.

I last served on the on the Kenai City Council from 2011 to 2020.

I'm a problem solver, keep taxes low and provide vital services that are necessary and that maintains our quality of life here in Kenai.

I also believe we have to prepare ourselves for the gas line opportunity, and to make sure we benefit both in jobs , opportunities, and make sure we get our fair share of payment in lieu of taxes, to provide these services.
