ADDENDUM NO. 1

This addendum consists of 7 pages

TO: All Plan Holders

FROM: Dan Castimore, IT Manager

DATE: January 5, 2024

SUBJECT: Answers to questions January 5th

Bidders must acknowledge receipt of this Addendum in the appropriate place on the Bid Form. Failure to do so may result in the disqualification or rejection of the bid.

Note: Information in this addendum takes precedence over original information. All other provisions of the document remain unchanged.

01-01 Plan Holder Question

"Is vulnerability assessment and penetration testing of City's internal and external networks desired? If so, please approximate IP counts for the target networks."

Response: This will depend on the selected proposal. The city has approximately 400 network devices.

01-02 Plan Holder Question

"Is this procurement from the internal audit department, IT department, or another office."

Response: The IT Department

01-03 Plan Holder Question

"Which operating system brands can be found in the IT environment?"

Response: Windows and Windows Server are the primary OS brands. Limited Debian and Ubuntu servers.

01-04 Plan Holder Question

"Re: "Electronic submission: Details of electronic submission process will be provided in an addendum.", please provide these digital submission instructions."

Response: See addendum #2 which will be issued concurrently with this addendum.

01-05 Plan Holder Question

"RFP page 7 defines deliverables 3.2 A, B, and C. Are these separate reports, or should we expect to prepare a single report?"

Response: These should be 3 separate documents.

01-06 Plan Holder Question

"What is the budget for this project?"

Response: This project is funded with a \$35,000 grant.

01-07 Plan Holder Question

"What is the budget for this project?"

Response: See response to 01-07

01-08 Plan Holder Question

"How many policies | procedures are currently in place?"

Response: Approximately 10

01-09 Plan Holder Question

"Have you had an information security risk assessment done in the past? Was in a Quantitative or Qualitative Assessment?"

Response: an assessment was conducted in 2020. Unknown what type of assessment.

01-10 Plan Holder Question

" Is there a rough budget for this project, so that we can tailor our proposal to that budget?"

Response: See response to 01-07

01-11 Plan Holder Question

" Do you have any information security staff on staff?"

Response: There are no dedicated IT Security Staff.

01-12 Plan Holder Question

"How many IT staff does the city have?"

Response: One full time and one part time.

01-13 Plan Holder Question

"Do you require the entire assessment to be performed onsite or can it be performed remotely? If a hybrid, what requirements of this assessment require an onsite presence and what items can be performed remotely?"

Response: There is no requirement for an onsite presence.

01-14 Plan Holder Question

"Is your technology environment fully discoverable from a central location? (via Site to Site VPNs, MPLS, SDWAN, etc..)"

Response: the majority of the network is discoverable from a central location.

01-15 Plan Holder Question

"Do you allow configuration and device discovery by a installed software agent collector? (Namely: Rapid Fire Tools, Network Detective data collector)"

Response: Assuming this is a question about whether the City would allow a contractor to install an agent to conduct this assessment, the City would likely allow this. The agent would need to be screened prior to approval.

01-16 Plan Holder Question

"Can all locations be scanned (via network scanning tool) from a single location?"

Response: See response 01-14

01-17 Plan Holder Question

"Are global admin credentials available for scanning network?"

Response: for the majority of devices, but not all devices.

01-18 Plan Holder Question

"Does your organization have access to Domain Admin, Global Admin or Administrator credentials for each of your IT assets?"

Response: for the majority of devices, but not all devices.

01-19 Plan Holder Question

"How many Servers are in the environment? (Virtual, Physical, Cloud,)"

Response: Approximately 60, most are virtual

01-20 Plan Holder Question

" How many desktop/laptops in each environment?"

Response: Approximately 200. Most of the computers are desktops, laptops are less than 10%.

01-21 Plan Holder Question

" Is there a domain or any directory services for authentication? Please describe:"

Response: Active Directory

01-22 Plan Holder Question

"Are there any development environments for custom applications? Externally Facing?"

Response: No

01-23 Plan Holder Question

"Are there any environments that are not accessible remotely? Please explain:"

Response: No

01-24 Plan Holder Question

"What are the key applications that host data? Are they in-house or cloud hosted?"

Response: For security reasons this question will only be discussed with the selected vendor. We have 5 applications that host data.

01-25 Plan Holder Question

"Are there any API integrations (Azure/O365, etc.)?"

Response: For security reasons this question will only be discussed with the selected vendor.

01-26 Plan Holder Question

"Do you use VLAN segmentation in your environment?"

Response: Yes

01-27 Plan Holder Question

"Do you have an inventory of the Information technology devices in your environment? How often is the inventory updated?"

Response: An inventory is maintained and updated regularly. It may not be complete.

01-28 Plan Holder Question

" Do you maintain warranty coverage or your infrastructure devices?"

Response: For security reasons this question will only be discussed with the selected vendor.

01-29 Plan Holder Question

" Is your cybersecurity program aligned to a Security Framework or Standard?"

Response: Not officially, the City has a preference for CIS.

01-30 Plan Holder Question

"Will this assessment be used by one or more of the city's agency to align with your CJUIS requirement?"

Response: No

01-31 Plan Holder Question

"Will you require a HIPAA risk assessment in addition to the Cybersecurity assessment or do you envision these as components of the same assessment?"

Response: HIPPA would be very limited in scope.

01-32 Plan Holder Question

" Are you audited against a Security Framework or standard?"

Response: see response 01-29

01-33 Plan Holder Question

" Is there a person in the City that owns the Cybersecurity Program?"

Response: The IT Manager

01-34 Plan Holder Question

" Is the municipality subject to any regulatory framework? (CCPA, GDPR, ITAR, DFARS, CMMC, CJUIS, PCI, etc....)"

Response: Unknown

01-35 Plan Holder Question

"The RFP states: "The City consists of a number of departments, each with unique requirements, ranging from a Police Department and Dispatch center to a Public Library. This requires compliance with a number of standards such as HIPPA, CJIS." Does the City intend the assessment to include assessment of compliance with HIPAA and/or CJIS and/or other?"

Response: This will not be a major component of this assessment.

01-36 Plan Holder Question

" Does the City have a preference of framework to assess the City IT against (NIST, CIS, etc.)?"

Response: see response 01-29

01-37 Plan Holder Question

"The RFP states: "The City of Kenai consists of approximately 200 computers and 118 users across 9 facilities using various wide area network connections." What kind of computers does this refer to (laptops, desktops, tablets, etc.)? How many servers are in scope?"

Response: See response 01-19

01-38 Plan Holder Question

"Does the City desire a physical security assessment of facilities?"

Response: This will not be a major component of this assessment.

01-39 Plan Holder Question

"The RFP states: "Device level security including routers, switches, cameras, wireless equipment, printers, copiers." Could the City provide estimated #s of each type of device in use?

- # routers and type
- # switches and type
- # cameras and type
- # wireless devices and type
- # printers and type
- # copiers and type"

Response: The city is a Cisco shop. We have 2 routers, approximately 45 switches, 34 WAPs, and approximately 10 voice gateways. There are approximately 90 cameras, primarily Axis. 16 Konica Minolta Bizhub copiers, and approximately 20 HP printers.

01-40 Plan Holder Question

"Does the City have a documented disaster recovery plan?"

Response: There is no formal plan at this time.

01-41 Plan Holder Question

"What is the approximate number of IT polices/pages the City has in place?"

Response: see response 01-08

01-42 Plan Holder Question

"Has the City had a prior cybersecurity assessment performed? If so, when was the most recent assessment completed?"

Response: see response 01-09

01-43 Plan Holder Question

"Does the City have an expected budget amount that can be shared for the project?"

Response: See response to 01-07

01-44 Plan Holder Question

"Can work be performed remotely (onshore), or does work need to be completed onsite?"

Response: see response 01-13

01-45 Plan Holder Question

"Regarding Kenai's Cybersecurity Assessment, will the infrastructure, policies, and/or response plan in this cyber audit encompass or include:

- Radio systems?
- Police dispatch systems (PSAPs)?
- Call handling systems?
- Video camera systems?
- Digital evidence management systems?"

Response: The City network doesn't include a Radio System, Police dispatch system, or Computer Aided Dispatch system. A camera system and digital evidence system are present.
