Multi-Craft Loom

Elements of Art and Principles of Design

Elements of Art are what make up a painting, drawing, print, ext. Not all elements are used in any given work of art, but they could if the artist desired it.

Principles of Design are what we do with the elements. How we apply these principles can determine the success of our art.

Elements of Art = building blocks

Principles of Design = building methods

- Artistic Concept:** Weaving
- Recommended Ages:** 6+
- Scientific Practice:** Basic weaving techniques

ABOUT THIS KIT

This multi-craft Loom inspires kids to create wearable, usable, and displayable art! Not only is weaving exciting and productive, it improves concentration and hand-eye coordination, and promotes fine motor skills and creative expression.

Creating art can be a very rewarding experience, but remember to keep it fun!

This kit generously sponsored by :
The Friends of the Kenai Community Library
