DETOUR PERMIT REQUIRED: _____ IF REQUIRED, PERMIT NO.: _____

According to the Kenai Municipal Code, Public Utilities Regulations:

5. Hydrants:

a. The use of fire hydrants is permitted only in special situations when approval, in writing, has been obtained from the City, and upon payment of the use charge. Failure to obtain written authorization from the City, failure to follow written instructions of the City, or any improper use of a fire hydrant is subject to the Rules and Regulations and penalty provisions of KMC 13.05 and KMC 17.05.

b. A deposit is required to assure careful use of the hydrant and will be refunded if no maintenance is required when hydrant use is completed. The use charge, which is non-refundable, shall be a daily fee. The deposit and daily use charge shall be as set forth in the City's schedule of fees adopted by the City Council. As an alternative charge, the City reserves the right to require metering in circumstances involving high volume usages, in accordance with rates provided in the City's schedule of fees adopted by the City Council.

c. The permit holder is required to use a hydrant wrench to slowly open and close the hydrant. During use, the hydrant must be fully opened. If using a hydrant to fill a tank, users must comply with State of Alaska DEC requirements for a minimum eight-inch (8") air gap on the fill line. Tanks are required to be inspected by the City before hydrants are used.

d. The fire hydrant permit may be suspended by the City of Kenai at any time (normally during City water shortages). The fire hydrant permit holder is required to maintain current up-to-date contact numbers with the City

Water use is prohibited from 10:00pm to 6:00am unless other arrangements are made.
